Total Solutions for Plastic Machinery

Product Overview

GEFRAN and other agency products

Pressure Transducer						
	K3 Series		KE Series		KN Series	
						
	M3 Series		ME Series		MN Series	
						
	M5 Series		M6 Series		KS/TK	
Displacement Transducer						
	LT/LT67/LTC		PC		PK	
						
	PA1		PY1/PY2/PY3			
						
	PZ12/PZ34		PC67/PZ67A/PZ67S		PMA12/PME12/PMI12	
						
	PMI-SL/PMI-SLE		IC		PR65	
Controller/Alarm unit/ Programmer/Indicator						
	PS		PCIR 101-102			
						
Power Controller/ Solid State Relay	WPG-A		WPP/WPA Series		WRP/WRA/WRG Series	
Ceramic Band Heater						
	4T48		4T96		40TB	
Ceramic Band Heater						
	40B96		450		600	
Ceramic Band Heater						
	650		2400		2500	
Ceramic Band Heater						
	GRM		GRM-H		GRP	
Ceramic Band Heater						
	GRP-H		GRS		GRS-H	
Ceramic Band Heater						
	GRZ		GRZ-H		GQ	
Ceramic Band Heater						
	Standard		Insulation Plus		Air Cooled	

Product Overview

Temperature Controller V Series							
	V100	V200	V300	V400	V500		
Temperature Controller C Series							
	C100	C200	C300	C400	C500		
Temperature Controller A Series							
	A1AN	A1DN	A2DA	A2DD	A3AN	A3AA	A3AD
							
	A3DA	A3DD	A4AA	A4AD	A4AN	A4DA	A4DD
Hot Runner Temperature Controller							
				TC500	TC5T	TC5H	TC5E Plus
						Valve Gate Controller	
				TC50	TC53		TC5V
Plastic Machine Controller							
	AR800/AR810/AR1280/AR2000/AR2010/AR2100			AR/FTS Series HMI			
Solid State Relay							
	ARD24 Series	ARD48 Series	SY Series	SV Series	SW Series		
Heatsoft			Signal Transmitter				
	SB Series			TR100/TR200			

Company Expectation

Founded in 1987, ARICO Technology Co. Ltd., has since committed itself in the development of industrial products and technologies to become a customer-satisfying solutions provider.

Besides researching and developing full range of sophisticated temperature control units, PC based human-machine interfaces and customized control equipment, ARICO introduces excellent products needed by related industries to expand the supply scope, bettering the company's ability to meet the customers' expectation and demand of product upgrades.

Our responsibilities:

1. High efficiency of organization operation and production management
2. A comprehensive marketing and service network
3. Maintenance of products competitiveness

And continue to exert our efforts and commitment in

"Reliability"

"Functionality"

"Economy"

"Advance"

Company Vision

The trademark of ARICO TECHNOLOGY CO., LTD., consists of a white human icon, three squares and alphabets **ARICO**

- ▶ The white human icon symbolizes ARICO's humanity-based developments and its emphasis on and concern for humanity, which confers a positive meaning of soaring upward.
- ▶ The blue squares denote to the close combination of the customers, suppliers and ARICO, who thrive and prosper together in their pursuit for excellence and perfection.
- ▶ **ARICO** is the abbreviation of A Right Controller Supplier, representing the company's determination and conviction to become "an excellent industrial control products provider".
- ▶ The business spirit of ARICO is founded on professionalism, steadiness and customers' trust. The company has spared no efforts in innovating its products to meet international standards and becoming a worldwide brand.

A Right Controller Supplier!

Hot Runner Systems

Hot runner systems were become popularity and important, it's technological advantages allowed improved reliability and the escalation to forming plastic parts. In the cavities of the mold, the plastic materials prices made hot runner systems more desirable and resulting in cost effective of wasteless.

ARICO hot runner controllers are specialized temperature controllers that keep specialized injection mold components at the design temperature in order to keep molds higher efficiently. It's flexibility allows easy configuration to meet individual customer needs for wide range challenging applications. The solid precision hardware structure, high quality material, custom-designed project and after-sales service shall guarantee your satisfaction.

Plastic Machine Controllers

ARICO Taiwan Corp. new design "AR/FTS series" efficient industrial processing controller. The integrated innovative wise technology with reliable Distributed Control System contains higher performance. Software combined with State-of-art window screen to provide smart and instinct object-oriented editing style hybrid switching with simple and popular PLC ladder program editor. His high-speed Ethernet communication network link-up between Humanity Interface and remote devices to displaying the future one-stop control advantages!

It can be broadly applied to automated machinery control, such as injection molding, extruder machine controllers and equipment.
